## NEW BISHOPS MAY COMPLETE THE AMERICAN HIERARCHY.

First Time in More Than Ten Years That the List of Catholic Prelates Has Been Full.

REPUBLIC SPECIAL Washington, April 21.-The apostolic delegation to-day received the briefs appoint ing the Very Reverend Philip J. Garrigan Bishop of the newly created See of Sloux City, Iowa, and the Reverend William J. Kenny Bishop of St. Augustine, Fia. Should none of the American Bishops die before the consecration of these latest appointers the consecration of these latest appointees the American hierarchy will be complete for the first time in more than ten years.

Bishop-elect Garrigan has been the vice vector of the Catholic University since its organization in 1888. He was previously pastor of the Catholic Church at Worcester, Mass., and Bishop Conaty, now rector of the university, was his curate. Doctor Garrigan was born in Ireland but came to this country with his parents at an early age. He was ordained for the diocese of Springfield, where he will be consecrated during the early part of May.

Bishop-elect Kenny is appointed to his new post in the regular order of promotion, He has been Vicar-General of the diocese for several years.

The completion of the American hierarchy is regarded as significant by ecclesiastics. At the recent meeting of the trustees of the Catholic University it was stated that the relection of a residen see for the rector upon the completion of his term was considered.

At present it is considered more likely

At present it is considered more likely that death will create vacancies among the Archbishops than among those of lower rank. Many of the Archbishops are aged and feeble men and the difficulties of their administration are harassing. This is noth-bly the case in the Chicago archdiocese and Bishop. Comaty is seriously considered for the post of Coadjutor Bishop, with the right of succession upon the death or complete incapacity of Archbishop Feehan. Bishop Muldoon's advancement is not considered likely.

### MINISTER TO CUBA WILL SOON BE NAMED.

President Likely to Select a Diplomat With a Knowledge of the Spanish Language.

The Republic Bureau, 14th St. and Pennsylvania Ave Washington, April 21.-It will not be long before the President will be called upon to name a Minister from the United States to the new Republic of Cuba. The office will be an important one and the honor great. the new Republic of Cuba. The office will be an important one and the honor great. The President has not decided upon any one for the position and will reserve the selection for the present. Owing to numerous important dislomatic questions likely to arise immediately following the entrance of this country upon new relations with Cuba, the President is thinking strongly of a man combining diplomatic experience with a knowledge of the Spanish language. He has before him the records of half a dozen men of this class. These are Henry L. Wilson, Minister of this country to Chile Herbert W. Brown, former Consul General to Barcelona, Minister to Persia and now Minister to Venezuela; Herbert G. Squiers, secretary of the legation at Pekin; John R. Jackson of New Jersey, second secretary at Berlin; Francis B. Loomis, Minister to Portugal, formerly Minister to Venezuela; Wm. W. Rockhill, at present director of the Bureau of American Republics and with a long diplomatic experience and fine record, Mr. Wilson probably has the best chance if the President makes his selection from this list. If the President goes outside of this field he will have plenty of material to select from.

pany's big retail store on Broadway and St. Charles street. All the departments were thoroughly renovated and overhauled, and the result is one of the most extensive and attractive displays of seasonable goods ever exhibited in this city.

The chinaware exhibit on the fourth floor was a magnet that attracted the women and held them in rapturous admiration. There is a collection of chinaware, cut glass and pottery that dazzles the eye with its epicudor and magnificence, embracing all grades of ware from the cheapest table sets to the richest designs turned out by the most famous potteries of Europe and America. There are magnificent designs in rare old Haviland. Savres, Guerin, Pouyat, Rookwood and Wedgwood that cannot be excelled in any city in the United States, and at prices cheaper than they sell for in the East. There are dinner sets to suit the purse of the mechanic, of modern design and good workmanship, and dinner sets of artistic design and costly material for the millionaire's dining-room.

On the second floor is shown one of the largest and most complete lines of kitchen ware ever exhibited. Everything that the careful housewife and cook can desire is attractively displayed. Of kitchen utensils there is a bewildering array of tin, iron, granite, enamel and earthen ware, the latter of which is coming rapidly into favor with housewives. A full line of gas ranges is shown, and in order to demonstrate that gas ranges are economical and at the same time saving of the housewife's strength, lectures are given daily by a competent demonstrator, giving a practical illustration of this fact.

A novelty recently added to this department is the Silke reavester and increase.
